Office Action Summary	Application No. 10/596,304	Applicant(s) GRATSIAS ET AL.	
	Examiner Hwei-Siu C. Payer	Art Unit 3724	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☐ Responsive to communication(s) filed on ____.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.

Detailed Action

1. The preliminary amendment filed on 6-8-2006 has been entered. The newly added claims 15-19 and 21-26 depend from canceled claims and have been withdrawn from further consideration.
2. The Information Disclosure Statement filed on 6-8-2006 does not include a list of all patents, publications, applications or other information submitted for consideration by the office.

Claims Rejection - 35 U.S.C. 102(b)

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claim 20 is rejected under 35 U.S.C. 102(b) as being anticipated by King et al. (U.S. Patent No. 6,167,625).

King et al. discloses a wet shaving system comprising at least one blade (12/14), a platform (16,18,20,22) and a guard bar (11) having two ends (38) and positioned forward of the at least one blade (12/14) and parallel to the blade cutting edge (see Fig.2, not labeled), said platform (16,18,20,22) having parts molded over said ends (38) of said guard bar (11) as claimed (see column 4, lines 17-19 and Figs.1 and 2).

Claims Rejection - 35 U.S.C. 103(a)

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 14 and 27 are rejected under 35 U.S.C. 103(a) as being unpatentable over King et al. (U.S. Patent No. 6,167,625).

King et al. discloses a process for manufacture of a wet shaving system comprising at least one blade (12/14), a platform (16,18,20,22) and a guard bar (11) having two ends (38) and positioned forward of the at least one blade (12/14) and parallel to the blade cutting edge (see Fig.2, not labeled), the process comprising the steps of providing a guard bar (11) having two ends (38); and molding at least part (18) of the platform (16,18,20,22) over the ends (38) of the guard bar (11) substantially as claimed (see column 4, lines 17-19 and Figs.1 and 2) except King et al. does not explicitly mention the step of positioning the guard bar (11) in a mold cavity.

However, for insert molding processes it is well known in the art to place an element to be molded into a mold cavity and inject molding the same as evidenced by King et al. (see column 4, lines 5-9).

Thus, it would have been obvious to one skilled in the art at the time this invention was made to place the guard bar (11) of King et al. in a mold cavity for insert molding.

The claimed limitation “wherein the guard bar includes a longitudinal body having a substantially circular cross-section” as in claim 27 has been carefully considered but is deemed not to import any method step on the process for manufacture of a wet shaving system and accordingly cannot serve to distinguish.

Point of Contact

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hwei-Siu C. Payer whose telephone number is 571-272-4511. The examiner can normally be reached on Monday through Friday, 7:00 am to 4:00 pm.
